## Work Experience

---

### Learnhall LLC

Washington USA (Remote)

FRONTEND ENGINEER

Dec. 2022 - current

- Successfully spearheaded the redevelopment of learnhall.com using React.js, delivering an enhanced user experience and improved performance.
- Served as the team lead, effectively coordinating a cross-functional team of four developers, including a designer, backend developer, frontend developer, and myself, to successfully deliver projects on time and within budget.
- Recognized as the top volunteer developer at the company, consistently delivering exceptional results and making significant contributions to project success.

### Switch Electric Ltd.

Nigeria

JUNIOR FRONTEND DEVELOPER

Sept. 2022 - Jan. 2023

- Played a key role as a frontend engineer on the team responsible for the development of the company's marketplace web app, contributing to the design, implementation, and optimization of the user interface.
- Collaborated closely with the backend engineer to successfully incorporate the web3 backend/API into the project, facilitating seamless interaction with blockchain technology and expanding the application's capabilities.
